Problem: Taiwan Team Ticket Discount and Cheer Code

A World Baseball Classic Taiwan team ticket website offers special discounts based on the fan membership type. You need to calculate the final amount payable based on the user's ticket amount and membership level using Python's `if`, `elif`, `else`, `while`, and string indexing.

In addition, the system asks the user to enter a **supporter code** for the Taiwan team, such as **CT-2026-A**. Your program must generate a **cheer code** by reading the supporter code **one character at a time** and copying every character **except -**.

Below are the discount rules: Fans are divided into two levels: **General** and **Premium**.

- **General Fans:** 5% discount for purchases over 2000; 10% discount for purchases over 4000; 15% discount for purchases over 6000.
- **Premium Fans:** 10% discount for purchases over 2000; 15% discount for purchases over 4000; 20% discount for purchases over 6000.

Requirements:

- (1) The user inputs the ticket amount.
- (2) The user inputs the membership level (input a string: "General" or "Premium").
If the input is neither "General" nor "Premium", output:
Invalid membership level. Please enter 'General' or 'Premium'.
- (3) The user inputs a supporter code string, such as CT-2026-A.
- (4) Calculate the discounted amount based on the user's input amount and membership level.
- (5) Output the membership level and the final amount payable in one line.
- (6) Then output the cheer code in the next line.

Output Format:

- First line: membership level and final amount payable
- Second line: Cheer code: followed by the processed supporter code

Sample Input/Output (以下是你程式執行後須印出的結果)

```
c:\workspace>python pe2.py
Enter the ticket amount: 1800
Enter the membership level (General or Premium): General
Enter the supporter code: CT-2026-A
General $1800.0
Cheer code: CT2026A

c:\workspace>python pe2.py
Enter the ticket amount: 5200
Enter the membership level (General or Premium): Premium
Enter the supporter code: TW-BASE-BALL
Premium $4420.0
Cheer code: TWBASEBALL

c:\workspace>python pe2.py
Enter the ticket amount: 2500
Enter the membership level (General or Premium): VIP
Enter the supporter code: CT-2026-A
Invalid membership level. Please enter 'General' or 'Premium'.

c:\workspace>
```

(繳交是交 pe2.py 檔，不是交截圖)

Note: You need to write comments (註解) for each part in your code.
